NOTE

TERMS & CONDITIONS

- This is not a binding contract. Kramer Mining and Material reserves the right to make changes at any time. All products are subject to availability.
- Total FOB price includes Aggregate Tax only.
- Quoted materials are by the ton, a ton equals 2000 lbs.
- This quote is based upon purchase during regular business hours, Monday through Friday.
- KMM is not responsible for interruptions of supply due to circumstances out of control.
- Prices do not include tonnage carry over beyond January 1st, 2027.
- Buyer agrees to use products purchased at above rates for the project(s) listed above only.
- The quote number must be presented at the time of sale to receive these prices.
- This quote becomes valid when signed and returned within 60 days of bid.
- Kraemer Mining & Materials, Inc. (KMM) terms are net 30 days. Any account beyond 30 days will be subject to applicable finance charges.
- Material quoted meet specifications indicated, not specifications designated for this project.
- MnDot Class 5 material is not warranted if on site quality control procedures are not followed as outlined in MnDot base and grading manual.
- Kraemer (KMM) will accept the quantity of Incoming Clean, Compactable, Non-Organic and Non-contaminated material on this project at the above amounts. The contractor may dump at the Burnsville quarry during normal business hours, Monday through Friday. KMM may require incoming material testing results and reserves the right to refuse any incoming for any reason. All incoming material will be scaled and ticketed. Incoming dump fee is contingent on purchase of all quoted materials for this project. KMM is not responsible for cross contamination. Contact Tristen Guettler with questions on incoming common.
